TODAY'S ART

My Ceramic Sculptures research the space and movement using Mobius ribbon and human body and bones, as a reference. Starting two new lines of work: a study around curve lines that represent 3 dimensions and a research about the subjective value of artworks.

TODAY'S WORK

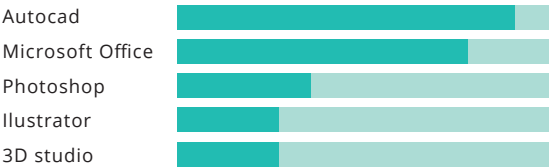

As CEO I seek innovation in our products and in commercial strategies according to our resources. As a Software Architect I intend to abstract he problem, identify tools to solve it and anticipate a future request. As a Leader, I attempt to connect with people and discover their best skills, in order to ease to emerge new future possibility.
